CAREER OBJECTIVE

Career changer from Civil engineering and geospatial (LiDAR/GIS) analysis, MERN Full Stack certified, with two deployed projects built using React.js, Node.js, Express.js, MongoDB, Redis, and Stripe. Currently building basic proficiency in Core Java and OOP through the Java + AI program at Anudip Foundation. Seeking an entry-level software developer role to build scalable web applications, write clean code, and actively participate in agile development.

EDUCATION

B.E. Civil Engineering | Chendhuran College of Engineering and Technology, Pudukkottai 2020
Academic record: CGPA 6.61

Higher Secondary Certificate (HSC) | Valampuri Vaduganadhan Higher Secondary School, Pudukkottai 2016
Academic record: Percentage 76.71%

WORK EXPERIENCE

LiDAR Analyst | EDR Continuous Information Private Limited, Chennai Jun 2022 – Dec 2025

- Performed vector mapping and aerial imagery analysis using MicroStation for utility infrastructure clients.
- Extracted planimetric features and classified LiDAR point cloud data for utilities, roads, and buildings.
- Performed testing and quality checks and validated mapped features for accuracy, consistency, and adherence to project specifications and documentation.
- Built attention to detail, analytical thinking, and data-validation habits that transfer to bug fixing, debugging, and quality assurance.

TECHNICAL SKILLS

Programming Languages: Java (Core Java, OOP – basic proficiency), JavaScript (ES6+)
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Zustand, Responsive Web Design
Backend: Node.js, Express.js, Spring Boot, RESTful APIs, JWT Authentication, Redis
Database: MongoDB, Mongoose
AI / LLMs: Prompt Engineering (fundamentals), System Prompts, RAG (concepts)
Tools and Platforms: Git, GitHub, Postman (API testing), Cloudinary, Stripe API, TMDB API, Ollama, Render (deployment)
Core Strengths: Object-Oriented Programming, Clean Code, Analytical Thinking, Problem Solving, Debugging, Teamwork, Quick Learning

PROJECTS

Full-Stack MERN E-Commerce Platform GitHub | Live Demo
Tech Stack: MongoDB, Express.js, React.js, Node.js, Redis, Stripe, Zustand, Tailwind CSS, Cloudinary

- Built and deployed a full-stack e-commerce application on Render using the MERN stack.
- Implemented JWT authentication with access/refresh token rotation and Redis-based session management.
- Integrated Stripe payments using Axios interceptors; the post-purchase page shows the Order ID and total amount.
- Managed global state with Zustand and used MongoDB transaction-based validation with idempotent checkout handling for reliable order processing.
- Used Cloudinary for image storage and Tailwind CSS for a responsive user interface; wrote clean, modular code and tested APIs with Postman.

Movie Streaming Application GitHub | Live Demo
Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Zustand, TMDB API

- Integrated the TMDB API to fetch and render movies, TV shows, and actor profiles.
- Developed an inline trailer player with automated content recommendations.
- Implemented global search with search history, including query logging, timestamps, and CRUD-based deletion through REST APIs and MongoDB.
- Managed application state with Zustand, styled with Tailwind CSS, and deployed on Render.

ACHIEVEMENTS

- Led and managed teams on smaller projects, coordinating tasks and ensuring timely completion.
- Successfully delivered several small projects on schedule.

CERTIFICATES AND TRAINING

MERN Full Stack Developer | View Certificate Error Makes Clever Academy – Apr 2026
Prompt Engineering Course | View Certificate Error Makes Clever Academy – Oct 2026
Java + AI Program | Anudip Foundation (in progress): Core Java, OOP, Spring Boot, Gen AI 2026

LANGUAGE PROFICIENCY

Tamil, English
